SUMMARY

Research Analyst with 4+ years of experience translating user behavior, market intelligence, and product data into actionable insights across AI products, gaming, AR/VR, and digital platforms. Skilled in qualitative and quantitative research, product analytics, stakeholder reporting, and competitive analysis.

SKILLS

Research & Analytics: SQL, Python, R, Survey Design, Qualitative Research, Quantitative Research, User Interviews, Usability Testing, A/B Testing, Cohort Analysis, Funnel Analysis, User Segmentation, Competitive Analysis
Tools: Snowflake, Tableau, Power BI, Google Analytics, Jira

PROFESSIONAL EXPERIENCE

Research Analyst, Invent Artificial (Contract), Remote, US Feb. 2026-Present

- Provided qualitative and quantitative research on AI powered interview preparation platforms, user behavior, and competitive market trends to support product strategy, feature prioritization, and roadmap decisions.
- Evaluated AI generated interviews, scoring systems, and feedback outputs through product testing and user analysis, recommending improvements to response quality and user experience.
- Analyzed user engagement and product KPIs, translating findings into actionable insights for product optimization and growth initiatives.

Research Analyst, Mighty Warners LLC (Contract), Remote, US Jul. 2025-Oct. 2025

- Led AR/VR consumer research and usability testing to inform product roadmap, boosting engagement and retention by 20%.
- Monitored market trends and competitive landscape, delivering insights that directly shaped go-to-market strategy.

UX Researcher & Content Strategist, Nova Codes, Boston, MA Jul. 2024-Jul. 2025

- Conducted player behavior and gameplay analysis using SQL and Tableau, generating insights that informed feature improvements, competitive positioning, and product-market alignment.
- Conducted UX and engagement analysis to identify content and product opportunities, contributing to a 10% increase in user engagement.

Growth & Engagement Analyst, Northeastern University, Boston, MA Nov. 2022-May. 2024

- Leveraged Snowflake and Google Analytics to identify alumni engagement trends, increasing engagement by 25%.
- Executed SEO and content optimizations informed by traffic analysis, growing website traffic 15% and LinkedIn/YouTube followers 17%.

Market Research Analyst, iTAP Entertainment & Gaming, Mumbai, India Sep. 2021-Aug. 2022

- Analyzed gameplay and engagement data via SQL and surveys to develop 5 user personas, boosting early retention 20% and campaign response 18%.
- Conducted competitor and market research to identify growth opportunities and guide product strategy in the tech gaming space.

Business Analyst - Sales & Market Intelligence (Summer Associate), Sunteck Realty, Mumbai, India Jun. 2021-Sep. 2021

- Built Tableau dashboards to monitor KPIs and delivered SWOT/competitor analyses that supported a go-to-market strategy driving 13% revenue growth.

EDUCATION

Northeastern University, Boston, MA

Master of Science (M.S), Game Science and Design (Interactive Technologies) – STEM May. 2024

Relevant Courses: Data Analytics, Business Models, Game Design & Analysis, Psychology of Play, Mixed Research Methods

Narsee Monjee Institute of Management Studies, NMIMS Mumbai, India

Master of Business Administration (M.B.A), Technology Management (Marketing & Business Intelligence) Aug. 2022

Relevant Courses: Machine Learning, Artificial Intelligence, Business Visualization, Quantitative Techniques, Strategic Management, Marketing Strategy, Digital Marketing, Analytics for Strategic Marketing Decisions

Narsee Monjee Institute of Management Studies, NMIMS Mumbai, India

Bachelor of Technology (B. Tech), Computer Engineering Aug. 2020

Relevant Courses: Data Structures & Algorithms, Operating Systems, DBMS, Object-Oriented Programming, Software Engineering

PUBLICATIONS & PROJECTS

Power Dependency and Cooperative Player Behavior in Multiplayer Game Design Jan. 2026

- Open research preprint analyzing player behavior using mixed methods research.

DOI: https://doi.org/10.31235/osf.io/wdy9h_v1

Gambit's Gauntlet, Northeastern University, Boston, MA Sep. 2023-May. 2024

- Led **Unity-based research** on multiplayer dynamics, analyzing player behavior and team interactions.
- Conducted **qualitative and quantitative tests, surveys, and recordings**, increasing player engagement metrics by **20%**.
